

### REMARKS

The Examiner has required restriction to one of two groups. In response, Applicants elect without traverse Group II (claims 16, 17 and 20; drawn to a method of treatment) for prosecution on the merits at this time.

Entry of the claim amendments is requested. Support for the amendments is found in the specification and claims as filed. In claim 17, support for MUC-1 "over-expressing" tumors is found, e.g., at page 3; support for treatment of "mammals" is found, e.g., at bottom of page 16.

Respectfully submitted,

Dated: 2 August 2007
